

STEEL INDUSTRY

Busbar supports

Pot insulation

Electrode arm insulators

Precision machined parts for
OEM applications

Mast Arm Insulation components
Yoke Insulation

Bus Insulation

Ladle Insulation component

Roof-Lift Cylinder Insulation
components

Insulating spacers, washers,
bushings, gaskets, panels, blocks,
shims, supports

Manufacture complete line of insulation components
for electric arc furnace

Insulation material offered in sheet, tube, channel and
fabricated into precise shapes based on your specifications
or reverse engineered from a prototype

Full material certification and quality certification with
each shipment

Manufacturers and Fabricators of High Performance Plastics

50 Sicard, Suite 125, Ste. Therese, QC J7E 5R1
